This publication compiles three sets of data. The first set comes from the U.S. Census Bureau's American Community Survey, which includes data on selected Social, Economic, Housing, and Demographic characteristics. The second set is the labor force statistics from the U.S. Bureau of Labor Statistics, which includes data on Total Labor Force, Total Employment, Unemployment, and Unemployment Rate. The third set comes from the U.S. Bureau of Economic Analysis, which includes data on: Personal Income; Total Full-Time and Part-Time Employment; Compensation by Industry; Regional Income and Expenses; Transfer Payments; and Farm Income and Expenses.

Data containing industry break-down are presented in two sets. The first is presented in terms of the U.S. Standard Industrial Classification system (SIC) and the second is in terms of the North American Industry Classification System (NAICS). The SIC data cover the years from 1969 to 2000, while the NAICS data cover the years from 2001 to 2016.

CA05N Footnotes

1/ The estimates of earnings for 2001-2006 are based on the 2002 North American Industry Classification System (NAICS). The estimates for 2007-2010 are based on the 2007 NAICS. The estimates for 2011 forward are based on the 2012 NAICS.

3/ Employer contributions for government social insurance are included in earnings by industry and earnings by place of work, but they are excluded from net earnings by place of residence and personal income. Employer and self-employed contributions are subtractions in the calculation of net earnings by place of residence and all of the income measures.

4/ The adjustment for residence is the net inflow of the earnings of interarea commuters. For the United States, it consists of adjustments for border workers and US residents employed by international organizations and foreign embassies.

5/ Rental income of persons includes the capital consumption adjustment.

6/ Includes actual employer contributions and actuarially imputed employer contributions to reflect benefits accrued by defined benefit pension plan participants through service to employers in the current period.

7/ Proprietors' income includes the inventory valuation adjustment and capital consumption adjustment.

8/ Under the 2007 NAICS, internet publishing and broadcasting was reclassified to other information services.

Note-- All dollar estimates are in current dollars (not adjusted for inflation).

(D) Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the totals.

(L) Less than $50,000, but the estimates for this item are included in the totals.

(NA) Data not available for this year.
